Secure your site: choose from our selection of packages
to suit your needs, with protection guaranteed!

THINK SECURITY THINK ATB SECURITY SERVICES LTD

With state of the art features, rapid deployment and unrivalled performance, trust ATB Security Services to provide protection your site needs from every angle.

We keep watch from every angle

We understand that protecting your site is of critical importance to you. The cost and inconvenience of a break-in can seriously impact your business, so you need a product and a team you can rely on for security.

ATB Security Services has extensive knowledge and over three decades of experience in the security industry.

We have designed and developed a product range to go along with our service to deter, secure, and respond.

Intruder Identification

When the alarm is triggered, video is received by our monitoring centre as well as the clients app.

Visual verification can **reduce false callouts by up to 95%.**

Monitored response

With every activation our monitoring team will visually verify unauthorised intrusions and determine the threat level, our centre will dispatch a private mobile patrol vehicle and emergency services to survey your premises and take necessary action.

Securing your sites nationally

We are proud to serve our customers with a fully accredited NSI Gold Category II Alarm Receiving and Remote Video Response Centre, designed, built, and operated to the BS8418 & BS5979, and boast a network of over 2000 SIA/ACS Approved responders across the UK.

With the industry leading performance of our Interceptor range, coupled together with the infrastructure of our national response team, responding to your site security has never been so fast and reliable.

INTERCEPTOR FIRE & SECURITY PRODUCT RANGE

With state of the art features, rapid deployment and unrivalled performance, trust ATB Security Services Interceptors to provide the protection your site needs from every angle.

Intruder Protection

INTERCEPTOR PRO

The Interceptor Pro is a product focused on eliminating intruders. Equipped with four motion cameras and a 30m detection radius, we can easily identify if your site has been compromised. First defence features like the live voice alarm and strobing lights will deter unauthorised activities on site.

Interceptor benefits

Suitable for Internal or external placement at construction sites, vacant properties and more

No mains power required

Solar panel with battery backup provides up to 6 months charge

Rapid Deployment to site - set-up within 30 minutes

Fire Protection

INTERCEPTOR FIRE

The Fire Interceptor protects your personnel, project and premises from the threat and risk of fire. If there's an emergency, you can use the manual call point to trigger an evacuation alarm, and fire extinguishers are on hand as the first line of defence. For 24/7 protection, you can add wireless heat and smoke detectors. When activated, they provide visual confirmation and automatically alert our alarm receiving centre.

If suspicious activity or fire is viewed, the emergency services will be notified

Built in tilt alarm

Monitoring for faults and battery low

Scheduled Arm/Disarm

Video Surveillance

INTERCEPTOR VISION

Offering a live view and 24/7 surveillance of any intruders, thefts or onsite accidents. Built on the integral foundations of the Interceptor Pro, this unit includes an additional mast with cameras and a larger solar panel. For an extended detection range, the Interceptor Lite can be integrated.

The upright mast houses three cameras which record 24 hours a day in 4K definition, all linked to the client app. All cameras are AI enabled to deter false alarms, they can detect animals, cars and humans apart.

Security benefits: The live camera feed from the Vision allows real time monitoring and protection to a larger area of your site.

Health and Safety: Recording during the day and live view allows managers to playback through footage and ensure accidents are well logged.

Workplace theft: With workplace theft of materials increasing, recorded footage from the Vision can be downloaded to identify the culprit and avoid future incidents.

TAKE THE NEXT STEP TO SECURITY

Looking to secure your site? Choose from our selection of packages to suit your needs, with protection guaranteed!

Site survey

An initial site survey will be carried out and our expert team will work with you to advise the alarm tower requirements best suited for your individual site.

Set up and commission

Once the survey and order has been approved, the rapid deployment towers can be set up and commissioned by our leading team.

Your site is now being looked after by ATB Security Services

Our NSI approved alarm receiving centre is now monitoring your site. You now have access to the Sitewatch support team for any technical assistance or help 24/7.

Response

In the event an unauthorised intrusion is attempted, our alarm receiving centre will instruct the response team to attend your site as a priority call. Once on site, a full check of the premises will be carried out by one of our SIA/ACS approved guards and the police along with your points of contact will be informed.

Get in touch to speak with one of our friendly advisors who can provide you with further information and arrange for a site survey.
